STATEMENT OF SELECTMEN

We, the Selectmen of Farmington, herewith submit our annual report for the year 1966 for your consideration.

As indicated in our 1965 report, Farmington does now benefit from the savings made possible by sharing in the state contracts on purchases. Approximately one thousand dollars ($1,000.00) was saved on the purchase of our Police Cruiser. Nearly a two thousand dollar ($2,000.00) saving was realized on the purchase of the new truck, which is now available as an emergency back-up vehicle. We are also saving five cents per gallon on our gasoline purchases over previous years. An added indirect saving to us is made possible by permitting the State Police unit in our area to purchase gasoline here at our cost, a saving of approximately twelve cents per gallon to them. Their previous purchases were at private filling stations.

The majority of the town's insurance policies has been grouped into one major policy. There was a saving here, also, as well as greatly increased coverage. We feel still more improvement is available in this area.

The Sewer Project was given voter approval and is progressing well in final planning.

The Davidson Water Line Extension is now complete and final payment has been made. The expected surplus on this project was exhausted by several unauthorized extras which were installed without our knowledge. Because of our arrangement in overseeing this project, the town was still liable for the added costs; and they were paid under protest.

Article number 19 in our 1967 warrant deserves your special attention. Approval of this article will be the start of a much-needed program to provide our employees with at least minimal benefits. At present we have only Workman's Compensation.

As an observation based on present conditions in our town, we should expect a constant annual rise (over and above our normal increases in operating costs) in property taxes. We are faced with major repairs and/or replacements plus demands for added services and programs.

In concluding, we would like to thank the many individuals who served on committees and aided in the operation of our local government. Your help was appreciated. Thank you all.

Respectfully, submitted,
Paul A. Therrien
Carroll H. Kimball

BUILDING COMMITTEE REPORT

Specifications for a storage facility for town equipment only are in the possession of the Selectmen. A square foot price estimate is also included. The committee chose not to submit this as an article for your consideration at this time. Due to the expense involved, the committee felt this should be temporarily delayed until after the sewer project is finalized cost wise.

Building Committee

BUDGET

Estimates of Revenue and Expenditures for the Ensuing Year January 1, 1967 to December 31, 1967
Compared with
Estimated and Actual Revenue, Appropriations and Expenditures of the Previous Year January 1, 1966 to December 31, 1966

TOWN WARRANT

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Farmington, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Farmington on Tuesday, the 14th day of March next, at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose one selectman for three years, one selectman for one year, a town clerk, a town treasurer, two auditors, a trustee of the trust funds for three years, three budget committee members and all other necessary officers and agents for the ensuing year.

You are also notified to meet at said Town Hall at seven o'clock in the afternoon on Wednesday, the 15th day of March, to act on the following subjects:

Article 2. To see what sum of money the town will vote to raise and appropriate to defray the expenses of general government as defined in the budget.

Article 3. To see if the town will vote to raise and appropriate the sum of $200.00 to be used in cooperation with state and federal funds for the control of white pine blister rust within the confines of the town. (By request)

Article 4. To see what sum of money the town will vote to raise and appropriate for the Police Department.

Article 5. To see what sum of money the town will vote to raise and appropriate for fire protection.

Article 6. To see if the town will vote to raise and appropriate the sum of $1,800.00 to be applied to the payments for services of a district nurse of said town, said funds to be disbursed through the Farmington Visiting Nurse Association. (By request)

Article 7. To see what sum of money the town will vote to raise and appropriate for the Health Department.

Article 8. To see what sum of money the town will vote to raise and appropriate for vital statistics.

Article 9. To see what sum of money the town will vote to raise and appropriate for summer and winter maintenance of highways and bridges and for the general expense of the Highway Department.

Article 10. To see if the town will vote to raise and appropriate the sum of $1,033.39 in order to assure State Aid in the amount of $6,889.29 for the improvement of Class V Highways.

Article 11. To see if the town will vote to raise and appropriate the sum of $5,000.00 for the Farmington Public Library Association. (By request)

Article 12. To see what sum of money the town will vote to raise and appropriate for old age assistance, town poor and soldiers aid.

Article 13. To see what sum of money the town will vote to raise and appropriate to Clarence L. Perkins Post No. 60, American Legion, to be used for Memorial Day observance.

Article 14. To see what sum of money the town will vote to raise and appropriate for the care of parks and playgrounds.

Article 15. To see if the town will vote to raise and appropriate the sum of $500.00 for the maintenance of the Cocheco River Project.

Article 16. To see what sum of money the town will vote to raise and appropriate for the care or removal of dead trees located specifically on town property.

Article 17. To see if the town will vote to authorize the Selectmen to hire such sums of moneys as may be necessary in anticipation of taxes.

Article 18. To see what purpose or purposes the town will vote to appropriate the balance of the parking meter fund not otherwise earmarked and the income over and above the maintenance expenses, in accordance with the provisions of Laws of 1947, Chapter 74, Section 2.

Article 19. To see if the town will vote to raise and appropriate the sum of $1,836.00 to institute a Group Insurance Program made available through the New Hampshire Municipal Association Insurance Trust.

Article 20. To see if the town will vote to raise and appropriate the sum of $140.00 to be contributed to the Armed Services Committee, Inc. (By request)

Article 21. To see if the town will raise and appropriate a sum not to exceed $2,000.00 with which to provide adequate court room facilities for the Farmington Municipal Court in accordance with the requirements of RSA 502: 4-A (supp). (By request)

Article 22. To see if the town will authorize the Selectmen to have Cross Street tarred and pay the expense of such tarring operation from general funds. (By request)

Article 23. To see if the town will vote effective as of December 21, 1966, to accept conveyance of all property of the Farmington Village Precinct, to assume all precinct liabilities and to agree to carry out and perform the purposes and functions of said Precinct in effect as of December 31, 1966, this vote, if in the affirmative to be effective if the said precinct so votes.

Article 24. To see if the town will vote to authorize the Selectmen to have all taxable land and buildings in the town revaluated for a sum not to exceed $11,000.00 (and to issue serial notes in equal amounts up to a period of five years). (By request)

Article 25. To see if the town will vote to raise and appropriate a sum not to exceed $25,000.00 through the issuance of serial notes or bond, upon the credit of the town, to cover the cost of constructing an extension of the municipal water system from existing wells on South Main Street to Route 11 at Wagon Wheels Corner (Formerly Edgerly's Corner) using the most expeditious route and thence for such distance southerly on Route 11 as may be deemed advisable so as to supply water to the voters at Wagon Wheels Corner and to authorize the Selectmen to determine the terms and conditions upon which the notes or bond shall be issued, including their sale and time in place of payment

in accordance with the provisions of the Municipal Finance Act (RSA 33) and any amendments thereto, and further to authorize the Selectmen to seek any federal or state financial aid available for such a project and to authorize the Selectmen to execute any and all documents necessary to acquire such financial assistance on behalf of the Town for this project. (By request)

Article 26. To see if the town will raise and appropriate a sum not to exceed $25,000.00 for the purchase of a fire truck, being a combination pumper and tanker type vehicle, and to determine how said appropriation shall be raised, whether by taxation, borrowing or otherwise and if by borrowing, to authorize the issuance of serial notes upon the credit of the town and to further authorize the Selectmen to determine the terms and conditions upon which such serial notes shall be issued in accordance with RSA 33. (By request)

Article 27. To hear reports from the Sewer Committee and Planning Board and to transact such other business as may legally come before said meeting.

Article 28. To see if the town will vote to adopt the Town Manager form of government as provided in Chapter 37 R S A.

Given under our hands and seal this 27th day of February, 1967.

SCHOOL WARRANT

To the Inhabitants of the School district in the town of Farmington qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 14th day of March 1967, at 9:00 in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.

2. To choose a Clerk for the ensuing year.

3. To choose two Members of the School Board for the three ensuing years.

4. To choose a Treasurer for the ensuing year.

5. To choose Auditors, and all other necessary officers and agents for the ensuing year.

Given under our hands at said Farmington this 7th day of February 1967.

WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Farmington qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 22nd day of March 1967, at 7:30 o' clock in the afternoon, to act upon the following subjects:

1. To determine and appoint the salaries of the school board and truant officer, and fix the compensation of any other officers or agent of the district.

2. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

3. To choose agents and committees in relation to any subject embraced in this warrant.

4. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district.

5. To see if the district will vote to accept the provisions of Title I, Public Law 89-10 (Elementary and Secondary Education Act of 1965), and to appropriate such funds as may be made available to the district under said Federal Act for such particular projects as may be determined by the School Board. Further, to see if the district will authorize the School Board to make application for such funds and to expend the same for such projects as it may designate.

6. To see if the district will vote to raise and appropriate the sum of three thousand dollars for a Contingency Fund, as provided by the New Hampshire Revised Statutes Annotated, 196:4-b.

7. To transact any other business that may legally come before this meeting.

Given under our hands at said Farmington this 27th day of February 1967.

Roland Chagnon
Cornelius Sullivan, Jr.
Paul R. Place
Elsie Hart

FEDERAL AID

Acceptance of Federal Funds by the school district at a special meeting December 20, 1965, as provided by Elementary and Secondary Act of 1965, Title 1, made possible to initiate a special education class for those children who needed additional help in the basic subjects. Miss Susan Lawrence, a graduate of the University of New Hampshire and graduate study at Plymouth State College, dir-

ected the project. Included in the project was much supplementary equipment purchased with these federal funds. An allocation of $2,613 was received for this project.

A very successful six weeks' Summer Reading Program under the direction of Mrs. Bernice Parshley and Miss Florence Stevens, both local teachers, was also made possible through an allocation of $5,387 jointly sponsored by Farmington and Middleton school districts. You are urged to read the evaluation of this joint project in the school report.

Currently, two cooperative projects sponsored by Farmington and Middleton are now in operation. Allocation of $2,400 has been made available for library shelving at the High School to accommodate the increased number of volumes and audio-visual aids which are being purchased on a five-year plan to meet the minimum library standards as currently set up. In addition, we are in the second year of approximately $5,000 per year, under Title II, of the same act, allocated for the purchase of library books and audio-visual aids to be made available for all schools in Supervisory Union #44.

Under another joint project by Farmington and Middleton, an allocation of $3,888 has been made available for the employment of teacher aides to assist the three first grade teachers who now have a total enrollment of 106 children. This project was phased in January 3; and the services of Miss Joyce Nutter, Mrs. Blanche Magee and Mrs. Muriel Martineau were procured. It must be reemphasized that these funded projects come from the joint allocation of both Farmington and Middleton school districts.

Although, at this writing, there are no committee reports in regard to the AREA Concept and the Co-operative School Districts. These are changing times in educational circles, and signs point to growth and innovation in the immediate future for continued study of this type of organization.

There will be a continuance of Federal programs which will affect education in one form or another. We should

be watchful and informed so that our decisions, concerning the education of boys and girls, will be based on facts rather than emotions and hearsay.

Throughout these days ahead we will appreciate, as in the past, your continued cooperation in the best interest of good education.

Respectfully submitted,

Ramon Martineau
Superintendent of Schools

John Houghton, Jr.
Asst. Superintendent of Schools

REPORT OF THE PRINCIPAL

To the Superintendent of Schools:

The undersigned herewith submits his report for the period from January 20, 1966, to January 27, 1967.

The overall enrollment of pupils in Farmington High School has decreased somewhat from that of the previous reporting period. The chief cause of this decrease was the graduation of a large class last June combined with the entrance of a smaller eighth grade than has been the norm in recent years. However, the entering eighth grade in September, 1967, is expected to return to the normal figure. The smaller graduating class, combined with the larger eighth grade, should bring the enrollment figure to approximately 311, an increase of 38 over the present figure. The addition of the new industrial plant to Farmington's economy does not seem to have had a significant impact upon the enrollment in Grades 8 through 12 as yet.

On June 17, 1966, fifty-five students were graduated. Of this total, 12 elected to continue their formal education; 12 entered the armed services; 8 married; 28 entered gainful employment; and 2 could not be classified at this time. This was the largest class to graduate in the history of Farmington High School.

There has been a number of very important additions to the educational opportunities made available to the students of Farmington High School this year. Physical education is required of all students in grades eight through twelve. The physical education program is teaching skills that can be used during the student's entire life, as well as benefiting him immediately through better conditioning and the application of good health habits. With the employment of the school librarian on a full time basis, the school library is open to the students during the full school day and during a portion of the noon recess. The increased library services help the student to make practical application of the study skills he learns in his classes, and in doing the necessary research for his projects. The supply of appropriate peri-

odicals make it possible for him to keep abreast of current developments in many areas. A guidance counselor has been employed for the first time in several years. The guidance program has benefited the student in enabling him to obtain help in solving the educational and personal problems he may face. It should also be noted that the number of drop-outs since September seems to have decreased in relation to that of previous years. This decrease may be due in part to the guidance program, as well as the other new services added to the curriculum.

The co-curricula program continues to offer many experiences of value to the students. This program includes athletics; the various clubs, such as the Math Club which has won two consecutive Southeastern League Mathalon trophies; and the class organizations. The Student Council continues to be active and has established a point system for student awards in the various activities of the school. In connection with the fall and spring athletics, there has been a problem in regard to the transportation of teams to out-of-town games. With the aid of money earned by the Civics classes in past years, a second-hand school bus has been obtained with which, it is hoped, this problem will be solved in the best interest of all concerned.

Farmington High School has been fortunate in retaining many experienced faculty members and in obtaining replacements of those who have chosen to move. Any school can only be as good as its staff, and the contribution made by the teachers to the students' education in Farmington has been significant. With the increasing rewards and benefits being offered to qualified educators in neighboring states and communities, it is becoming increasingly difficult for Farmington to compete for qualified replacements.

The building remains in good condition and requires no more than the usual precautions necessary to preserve the district's investment. The undersigned remains a supporter of a program of preventive maintenance, such as regular cleaning of septic tanks, heating equipment, the preservation of roofs, floors, plumbing, and the like.

This attention would tend to prevent the sudden failure of equipment resulting in hazards to the pupils. It may also be noted that the building continues to be used by many outside organizations many times during the year.

In closing, the writer would like to express his appreciation of the fine cooperation he has received from the Farmington School Board, the Superintendent of Schools, and his staff, fellow principals, faculty and staff, and from the students and their parents. The voters of the Farmington School District must also be sincerely thanked for the fine additions to the program of the school which they have made possible during the present year.

Respectfully submitted,
Charles H. Morgan
Principal

MAIN STREET SCHOOL
ELEMENTARY PRINCIPAL'S REPORT

To the Superintendent of Schools:

Expansion of student population necessitated an increase, by one teacher, in the staff this year, resulting in a staff numbering ten in size. This consists of three classroom teachers each for grades five, six, and seven, and one specialist teacher in reading.

An additional classroom was required for the extra class, and this was obtained by permanently dividing the auditorium, rendering that facility unavailable to us any longer for joint class activities. New furniture was purchased for this room, also.

One other room was modified to some extent to make it suitable for more sophisticated science instruction. This consisted primarily of the installation of a teacher's lab demonstration table.

We continue to make extensive use of educational television in the fields of science and social studies. To facilitate our use of this medium, another television set has been purchased, providing a set for both upstairs and downstairs.

We became the beneficiaries of a considerable amount of special reading equipment and materials which had been purchased by Mr. Martineau with federal funds for the special summer school program held here in Farmington last summer.

Perhaps the most significant undertaking of the past year has been the continued development and refinement of the very vital reading program. For the past three years, we have been steadily reorganizing and revising both our instructional technique and materials. Instructional changes have consisted primarily in the utilization of a semi-departmentalized classroom arrangement, allowing three key subjects in both grade five and grade six to be taught by what might be called "specialist teachers." This phase of our reorganization was completed last year. These special classes imply the need of special materials to guarantee really effective implementation. Though all three subject areas have received attention in this regard, our primary effort here has been in the field of read-

ing, the elementary school's primary reason for being. Extensive materials of exceptional quality were purchased for the fifth grade program last year. These enabled us to develop a reading program in grade five that was truly meaningful and effective for nearly all the children involved in it. In the past, as has been more or less traditional in elementary schools, primarily because of lack of adequate teacher time and instructional materials, we had been presenting a mode of reading instruction which, in essence, required the students to fit themselves into a pre-conceived mold of reading competence in order to effectively benefit from our instruction; a fact, which, for many of them, was not consistent with reality, as indicated by their aptitude and/or achievement levels. Therefore, many of them were not given an equitable opportunity to achieve at levels commensurate with their abilities and interest. Departmentalization created more teacher time and competence, and the purchase of quality materials of both basal and supplemental natures, geared to several different levels of instruction, made it possible for the teachers to offer instruction on several levels, suitable, in most cases, to the individual students' personal needs and abilities. Thus, our reading program became far more effective and equitable.

During the current year this same procedure has been carried out in grade six. It is our plan to further extend this refinement of the reading program into grade seven next year.

Respectfully submitted,
David Roberts

MEMORIAL DRIVE SCHOOL
PRINCIPAL'S REPORT

To the Superintendent of Schools:

Our initial enrollment for the year 1966-1967 was 354. The distribution by grades were as follows:

Grade 1	105
Grade 2	85
Grade 3	83
Grade 4	81

Each grade was divided into three sections with the following teacher assignments:

Grade 1 - Mrs. M. Clough, Mrs. Cook, Mrs. Larow
Grade 2 - Mrs. Jones, Miss Skidds, Miss Whipple
Grade 3 - Mrs. G. Clough, Mrs. Gardner, Mrs. Robinson
Grade 4 - Mrs. Carr, Mrs. Glidden, Mrs. Parshley

We were fortunate in having all our teachers, but one, return this year. Mrs. Stearns, Grade 4, left to teach near her home in Barrington. She was replaced by Mrs. Glidden, who is no stranger to us, having substituted at Memorial Drive many times.

Our total enrollment figure remains quite stable although we have had quite a few enter and transfer this year. It might be interesting to note that approximately eighty of the children's parents are employed at Farmington's newest industry.

A ruling was made last spring that our incoming first graders must be six years of age by October 1. It was agreed that for this school year only (1966-1967) that, if they attained this age between October 1 and December 31, and satisfactorily completed a readiness test, they could enter school in September. Thereafter, there would be no exceptions to the October 1 rule. In spite of this ruling, we enrolled a large first grade. The results of the readiness tests given to all first grade pupils in September show a definite relationship to the pupil's abilities to do Grade 1 work.

Supt. Martineau, through the use of federal funds, secured three teacher aids to work with our first grade teachers. These aids are giving valuable help to the beginners in these classes.

As for instruction--the new math is being taught in all

our classes. New methods employing filmstrips, the flash o'graph, the tape recorder, the language lab and individual work, by which the pupil can rate himself, are being utilized in the teaching of reading. The educational TV programs play an important part in our teaching. Mrs. Dorothy Bassett serves as instructor in both vocal and instrumental music this year.

Several of our teachers are taking extension courses.

Of necessity, many facilities must be shared by Memorial Drive and the High School. The Memorial Drive teachers wish to express their appreciation to Mr. Morgan and the High School for their cooperation.

Respectfully submitted,
Bernice Parshley

REPORT OF READING CONSULTANT

To the Superintendent of Schools:

Every fall all children in Grades 3 through 7 are individually checked as to their Sight Vocabulary Level, which means their ability to recognize words out of content. This usually indicates the level at which the child can read easily. The study reading level is customarily one-half grade level above the S. V. Level. This testing is used as a guide in placing the child in a reading group in his class.

The following table shows the percentage of those on or above grade level in the grades 3-7 as compared to the results of 1964:

	1964	1966
Grade 3	(not tested)	61%
Grade 4	41%	44%
Grade 5	49%	55%
Grade 6	56%	67%
Grade 7	55%	60%

Grade 3 children have had two years of intensive phonic training, a new system which was instituted in 1964. This system seems to have produced better results.

Last year Grades 4, 5, 6, and 7 were divided into groups based more or less upon their reading skill. This seems to be more effective. Children from the middle grades were given extra help when found to be below grade level. It is impossible to bring everyone up to grade level because of the wide span of mental ability, but the effort is made to bring all up to their potential.

Presently, it appears that the teachers are doing excellent work, but two factors are holding them back. First, a room is needed into which can be placed those children of very low I.Q., who need a specially trained teacher. A regularly trained teacher cannot leave her

other children to work with the mental retardates, nor has she the skill to do so.

The second factor that is holding back the teacher's effectiveness is the entering of too many children who are not mature enough to profit by instruction. Some enter before they are 6 years old mentally. These become our repeaters, often bored repeaters and problem children. It would be well if all children born after September 1 were carefully tested to determine their Mental Age before entering Grade 1. It would help if parents did not try to push the child into school before he is ready. This only loads the classes with immature children who take the teacher's time away from instruction, and the children are not ready for school.

In conclusion, I wish to say that the teachers are continuing to do an excellent job in their reading instruction and are doing their best to get each child up to his potential.

Respectfully submitted,
Leona Haskell

REPORT OF THE SCHOOL NURSE

To the Townspeople, School Board, and Superintendent of School:

The following report is for the school year 1965 to 1966.

The communicable disease incidence was average with a mild epidemic of mumps, two cases of chicken-pox, thirteen cases of German measles, six cases of scarlet-fever, one case of ringworm, and twelve cases of impetigo.

Pediculosis (head lice) had sixteen cases compared to one the year before. The sixteen cases were reported and properly taken care of.

The School Dental Clinic, sponsored by the Farmington Visiting Nurse Association, was started in February, 1966, and grade one through eight participated with a total of four-hundred and eighteen taken advantage of the clinic. Teeth were cleaned, examined, and received a fluoride treatment, and all parents were notified of any defects and advised to take their children to their family dentist as soon as possible.

Orthopedic Clinics were held in Dover, New Hampshire, December, April, and June; and six children attended these clinics.

Dreypak Testing (urine-sugar) was done in grades eight through twelve with three-hundred and sixteen students participating in the program.

The Pre-School Round-Up was held May 9, 10, 11, 1966, and seventy-nine children were registered at the round-up to start school in September, 1966. Each child received a vision test, hearing test, was weighed, measured and teeth were checked and a medical history was taken on each child.

Operation Head Start was a summer program with twelve pre-school children participating in it for seven

weeks.

School health physical examinations were carried out by school physicians, Dr. George E. Quinn and Dr. Robert E. Lord. Five-hundred and thirteen children were examined; and whenever there was an abnormal condition existing in any child, the parents were notified and advised to consult their family physician. Minor defects were promptly treated.

Vision testing was administered to check defective vision on four-hundred and fifty-two students, and hearing tests with the Maico Audiometer were done throughout the school year to help the students. One-hundred and fifty-five students were tested.

No child needs to go without glasses because financial assistance is available obtaining proper diagnosis and corrective treatment. This may be arranged through me (school nurse) through various organizations.

During the school year four-hundred and eighty-nine school calls were made by the school nurse, and one-hundred and eighty-seven ill children were transported home, and sixty-one children were transported to the doctors during the school year 1965-66 by the school nurse.

In concluding this report, it is a privilege to mention the cooperation of the following service organizations and groups who helped in many ways and many times: Kiwanis Club, Salvation Army, Farmington Woman's Club, American Legion, Ladies' Legion Auxilary, Elks Club, Rainbow Girls, 500 Boys' Clubs, and Ladies' Church Service Organizations. These clubs and organizations are continuously serving and providing suitable clothing, dental and vision aid, food, and many things for the children; and by doing so, they help build a better and healthier community.

Following is the statistical report of the school health work for the school year 1965-66:

Pupils Examined by School Physicians	513
Pupils Examined by the School Nurse	452

Defects Found by School Physicians	8
Defects Found by the School Nurse	53
Defects Treated	47
Inspection of Heads	1033
First Aid to Children	925
Ill Children Transported Home	187
Ill Children Transported to Doctors	61
Home Visits Made by School Nurse	489

Respectfully submitted,

Mrs. Rachel N. Feeny, R.N.
School Nurse Teacher

REPORT OF THE GUIDANCE COUNSELOR

To the Superintendent of Schools:

Guidance is the process which enables each individual to understand his interests, abilities, and personality traits; to develop them as well as possible; and to relate them to his life's goals.

The general objectives of guidance are to acquire a thorough knowledge of each student as an individual; to know his aptitudes, abilities, interests, physical, mental and emotional condition, family background including economic status; and other pertinent information which indicate the way to his best adjustment now and in later life.

The basic attitude of the guidance program is that the individual is of central importance. Rules and regulations of the school, the community, and society as a whole are important. Equally important are the demands made in our economy for trained workers in our occupational structure. In guidance work the normal growth problems, adjustment, and the progress of the individual as a member of our society are the primary concerns.

The counseling service is viewed as that part of guidance that provides a one to one relationship between a student who seeks a better understanding of self and/or his world and the counselor skilled in the techniques necessary to help the student in the relationship to achieve such an understanding. Students seek counseling through their own initiative, are called by the counselor or are referred to the counselor by parents, teachers, and/or administrators. Typical occasions or conditions that may indicate a need for counseling are (1) personal problems; (2) educational, vocational or avocational problems; (3) interpretation of test scores; (4) health problems; (5) college admissions and scholarships; (6) school grades and underachievement; (7) adjustment; (8) discipline problems; (9) four year program planning; and (10) vocational exploration.

Several students attend group counseling sessions.

Small groups of students, chosen because of certain complimentary characteristics, are drawn together, and as a result, enchance the effectiveness of the counseling effort.

Parents are invited to contact the counselor at any time the counselor can be of assistance. The counselor attempts to provide and interpret information about individual students and provide information about courses, graduation requirements, school regulations, college admissions, scholarships, referrel agencies, etc.

The counselor provides and interprets information about individual students and cooperates with teachers to help students derive maximum benefits from instruction.

Following the philosophy that the basic responsibility of the school is to assist each individual to develop to his potential, the school has the obligation of helping the student recognize and understand his abilities. As a result, tests with multiple scores are used. The school participates in the New Hampshire Eighth and Tenth Grade Testing Programs. During the junior year the students may participate in the National Merit Scholarship Test and the Preliminary Scholastic Aptitude Test. Seniors may take the General Aptitude Test Battery, College Entrance Examination Board, and the American College Testing Program. Aptitude, intelligence, achievement, personality tests are administered upon the student's request or counselor's recommendation.

The counselor attempts to assist the administration by identifying and interpreting requirements of the local labor market and studying the changing demands and requirements of post high school training requirements.

The information service provides students with information about: (1) high school programs, courses, graduation requirements, and miscellaneous school information; (2) college, trade school, vocational schools, special schools, and apprenticeship programs; and (3) scholarship, financial, and self-help information.

The placement and follow-up services assist students in preparation of college admissions and scholar-

ship applications and help students make personal contact with appropriate jobs, employers, colleges, trade schools, and other educational institutions. Various college and military representatives have visited the school.

The following is a statistical report from September 7, 1966, to January 27, 1967:

Pupils Interviewed	178
Counseling Sessions	500
Group Counseling Sessions	80
Testing Sessions	70
Parent Conferences	15
College Representatives	12
Service Representatives	2

Counseling sessions vary from 20 minutes to two hours depending on student needs.

Respectfully submitted,

George Kourkounas
Guidance Counselor

MEMORIAL DRIVE SCHOOL SUMMER READING PROGRAM

TITLE 1, E S E A

Our Summer Reading Program, of six weeks duration, could be classed as "Remedial." The thirty pupils were divided into two groups. One group involved pupils in Grades 2 and 3, and the other group was made up of pupils from Grades 4 and 5. With these small groups, it was possible to work on an individual and two or three grouping basis. We used the "Learning through Seeing" filmstrips with the younger group, which, by the use of "Seeing Skills" films and Flash-O-Graph, promoted attention and interest. The "Seeing Skills" were followed by vocabulary drills (filmstrips) consisting of Dolch words and phrases--succeeded, of course, by the work in comprehension. This type of work, in addition to selected phonetic drills, was done with the whole group--with particular attention to individual remedial needs. Next, small groups worked with Scott Foresman material. A teacher would be busy with one small group while other groups worked in various parts of the room, reading, debating comprehension choices, etc.--and it was good to hear disagreements and sometimes quite vigorous arguments concerning some word usages.

Of all the phases, we worked harder on comprehension--from the manual suggested idea to the old way of questions page by page and "Who can find the answer?" It did pay off, not only in comprehension, alone, but in a sensible attack on pronunciation and vocabulary building. We used 1B of the S.R.A. in this group. The tape recorder and the language laboratory were much in use.

We found that Grade 2 did not seem to progress the last week; in fact, they sometimes appeared to regress, while Grade 3 pupils showed a steady gain.

Effort and cooperation were excellent in both groups. Reading materials found most helpful in the upper group were the Reading Training Films based on the Developmental Series by Lyons and Carnahan; the S.R.A. Reading Laboratory; and the Elementary Reading Tachist-O-Films.

In addition to group work, there was opportunity for the teacher to give much individual help and attention. Definite progress along many lines was noted, not only in reading, but in less tangible qualities as self-assurance, self-respect, and leadership.

We told the children at the beginning of the program that they were not going to be "ranked," that we were there to help them read better and we think that this was a big factor in their achievement. Praise was readily given, but there was no pressure. If someone were slow, we suggested that they might like to do a little more and it was willingly done.

We had two breaks in our three-hour period, which we found were needed in the summer weather.

Attendance was excellent for a voluntary summer program.

We were very satisfied with the individual accomplishments.

Bernice Parshley, Grade 2 and 3

Florence Stevens, Grades 4 and 5
